PUN

La nuova sedia di Archirivolto Design per Green è comoda resistente e leggera. Destinata al successo, nasce colorata, impilabile e adatta ad ogni tipo di ambiente che può trasformare con le sue combinazioni cromatiche.

The new chair designed for Green by Archirivolto Design is comfortable, strong and light. Destined for success, this chair is colourful, stackable and suitable for any environment which can be transformed easily with its combination of colours.

Realizzata con le stesse prerogative di Punk, costituisce uno dei primi ed originali tentativi di forme nuove per il comfort. Anche qui aggregando liberamente tra loro seduta e braccioli, si ottengono soluzioni cromatiche che permettono di offrire al consumatore un prodotto perfettamente "on demand".

Produced with the same special qualities as Punk, the Shark armchair is one of the first, original attempts to interpret new comfortable shapes. Combining different coloured arms and seats one will obtain a perfectly "tailor made" product.

SHARK

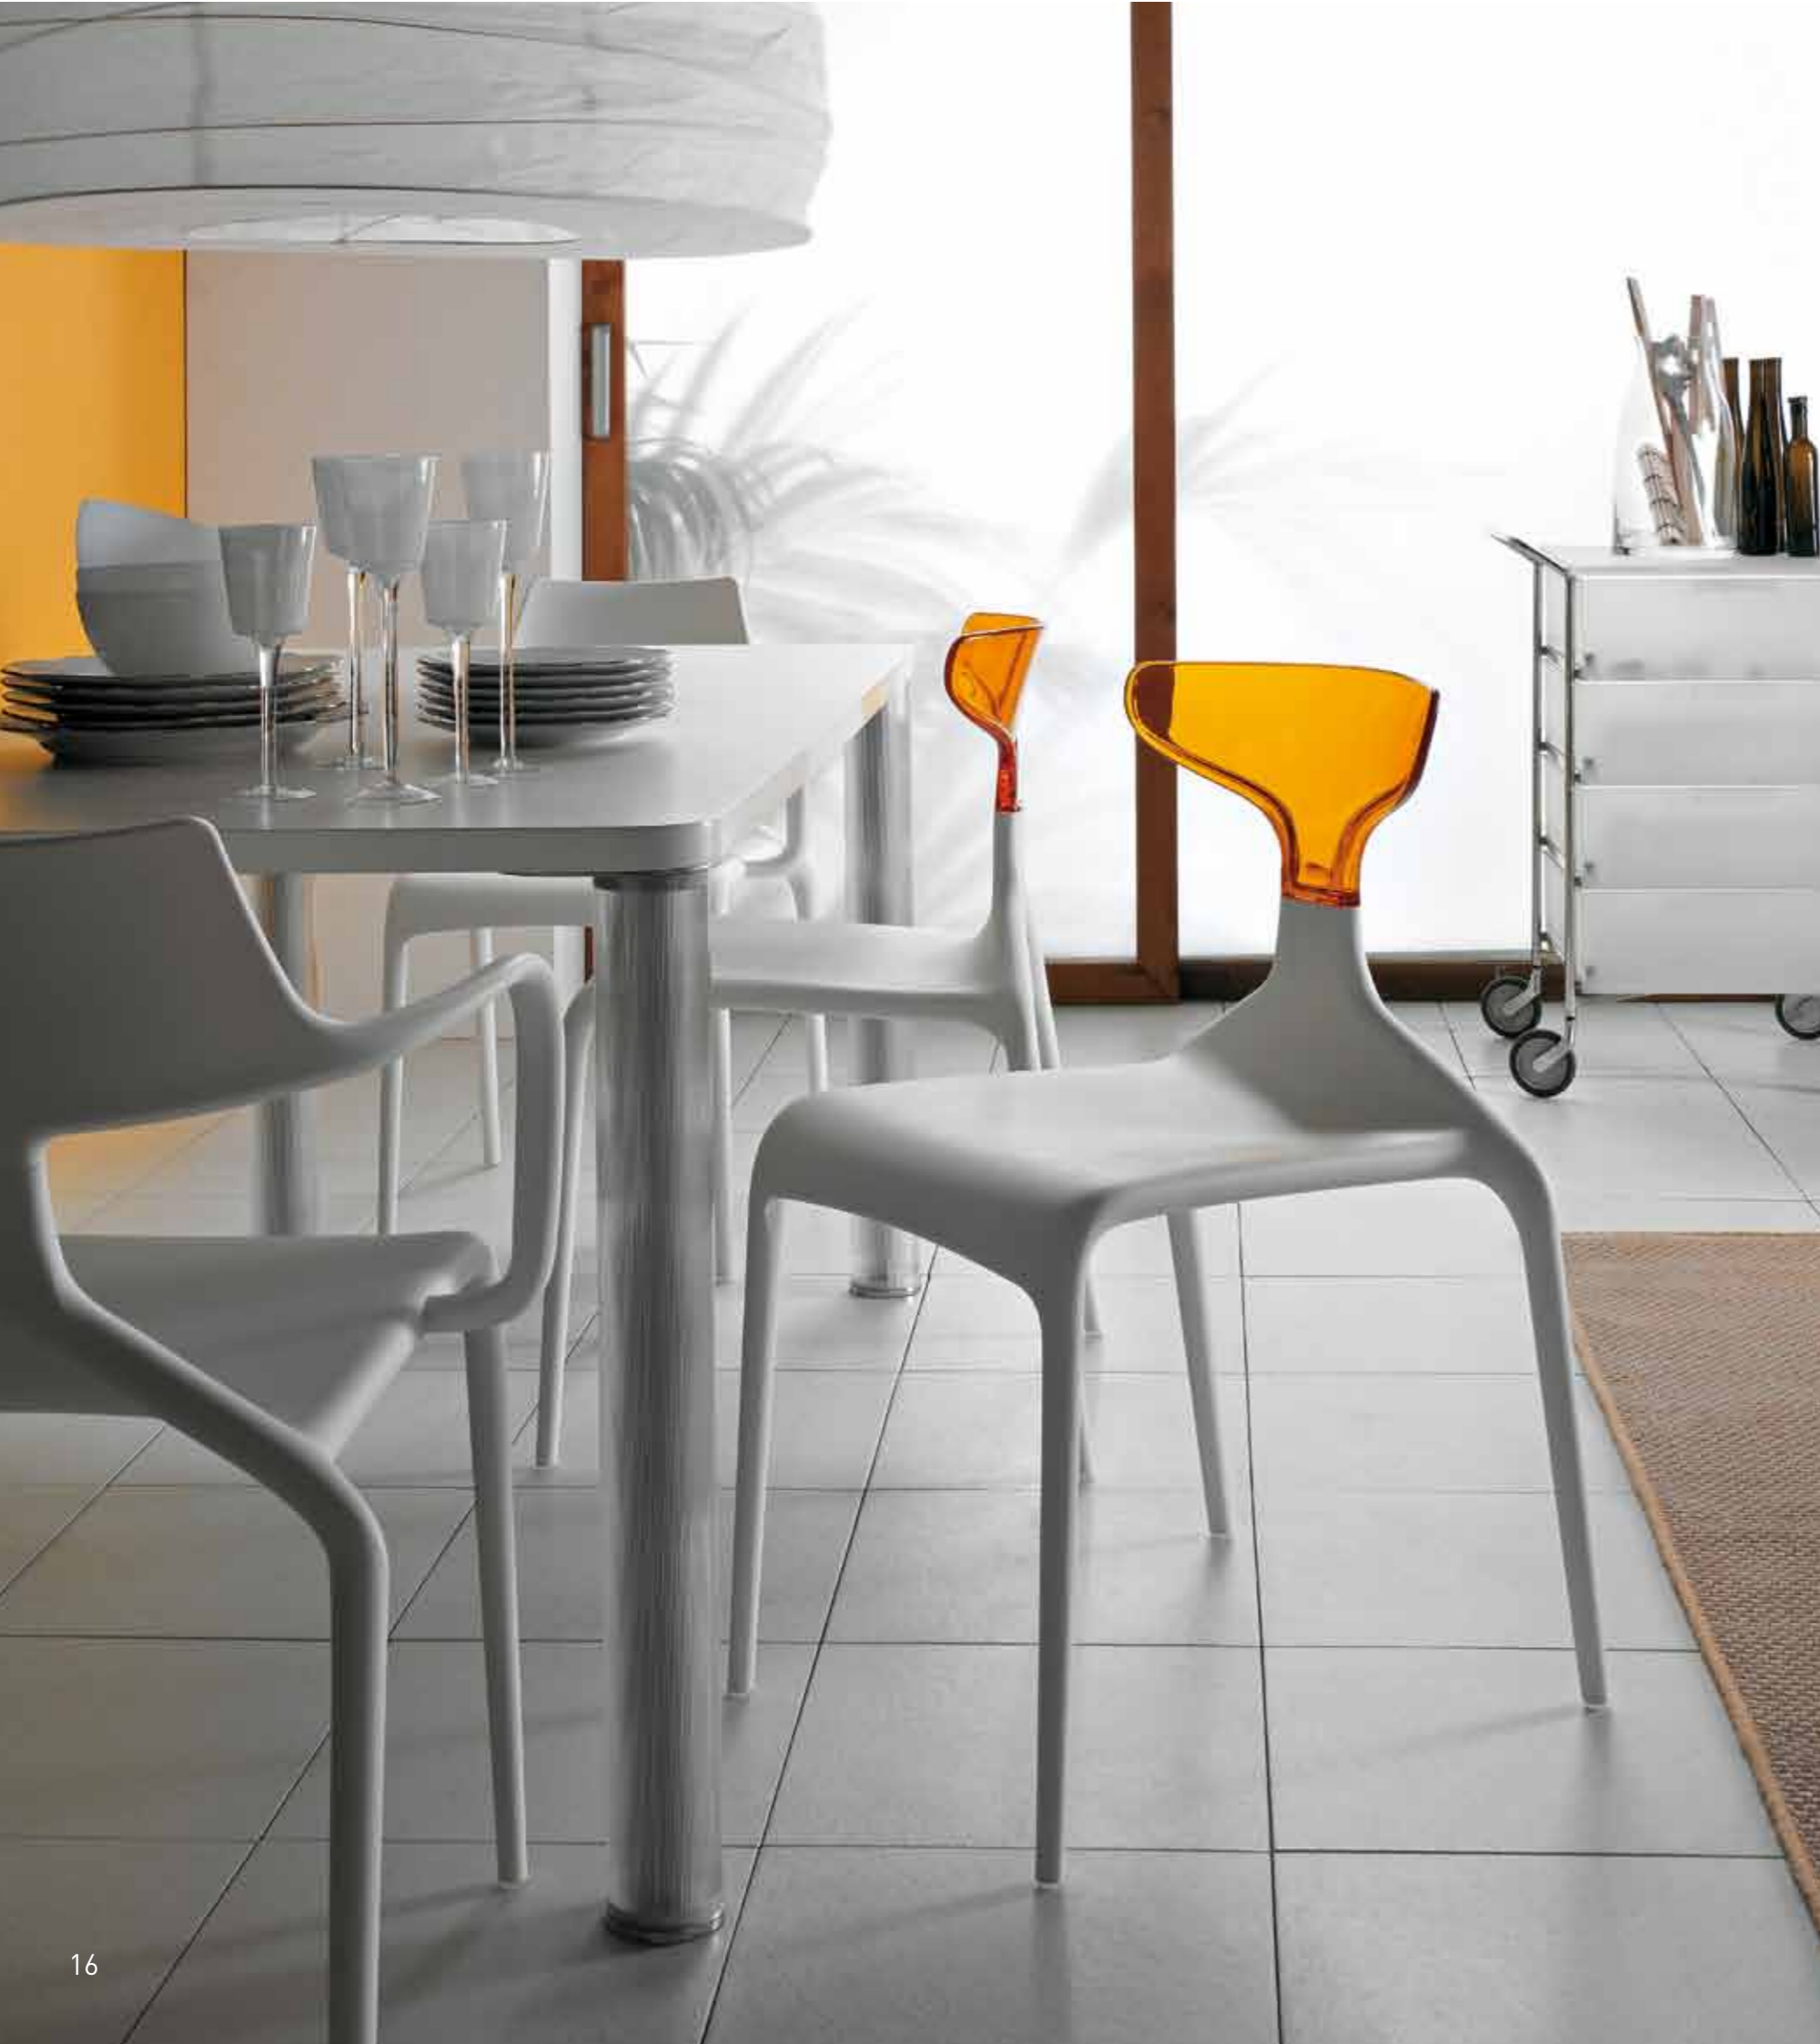

Shark è così curata nella forma da risultare molto comoda ed accogliente, ma soprattutto abbiamo ottenuto alte performance di robustezza, certificata al massimo livello da CATAS anche per le norme ANSI/BIFMA.

Shark is so carefully formed that it is extremely cosy and comfortable, but above all we have obtained a high level of robustness exceeding the maximum CATAS test and respecting the rigid ANSI/BIFMA rules.

LOW e PAUL

Nasce come un gioco colorato la nuova collezione Green table. Bella e adattabile ad ogni situazione di casa o contract con cinque misure di piani verniciati in cinque colori laminato liquido, due misure di Werzalit e cinque varianti di colori della gamba in policarbonato trasparente, che presentano soluzioni cromatiche ottenibili su richiesta.

The new Green table collection began as a colourful game. Beautiful and adaptable to any situation in the home or business premises, four different top sizes are available. It is produced in five liquid laminate colours (with two layers of Werzalit). Five colour variations for the legs in transparent polycarbonate are available on request therefore offering array of colourful solutions.

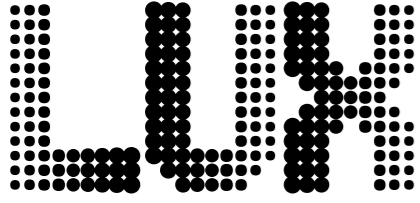

La gamba stampata in policarbonato trasparente è caratterizzata da un disegno mille righe che dona luce e decorazione all'ambiente.

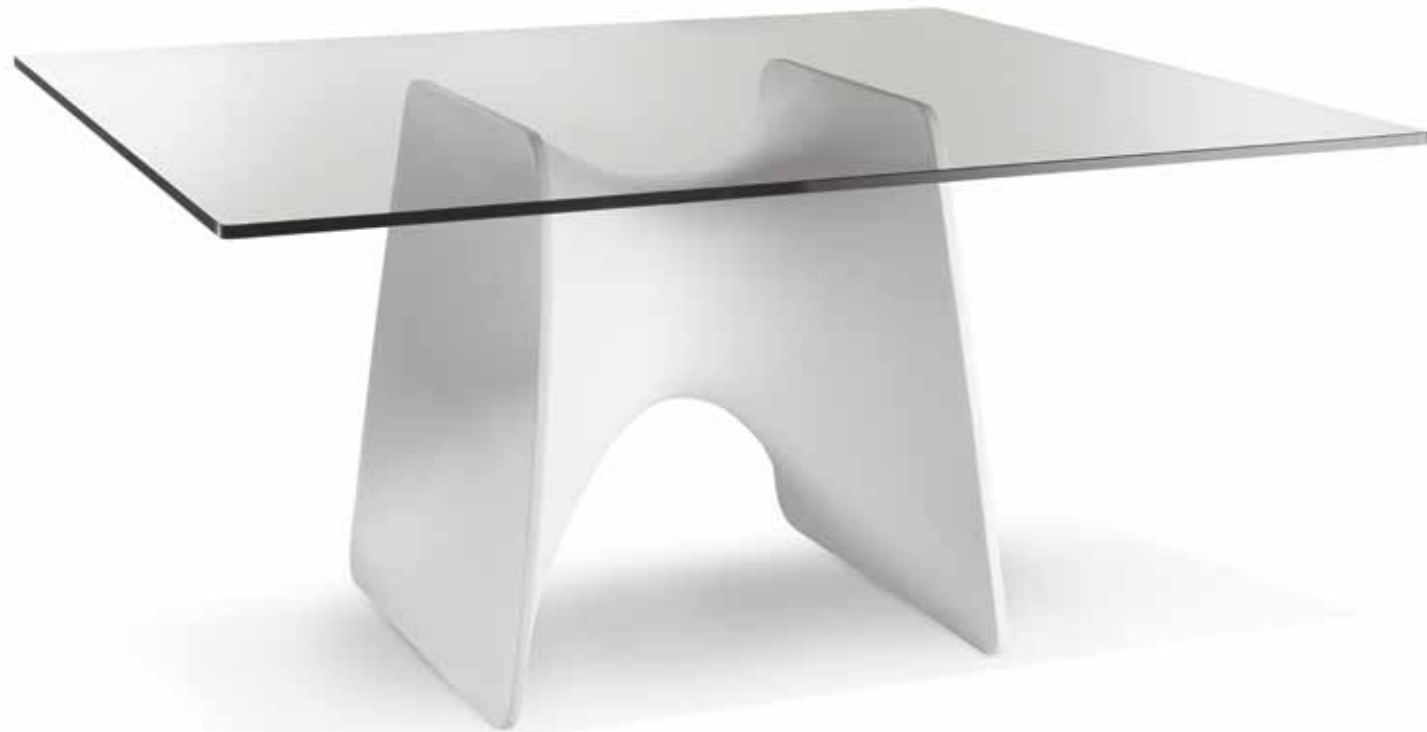

The legs, which are produced in transparent polycarbonate, are characterized by a design of "thousand lines" that gives light and decoration to the environment.

Un design essenziale quello di Lux, rappresentazione di una cura estetica che prende vita dalla ricerca continua di Archirivolto Design, interpretando con semplicità un modo di arredare contemporaneo.

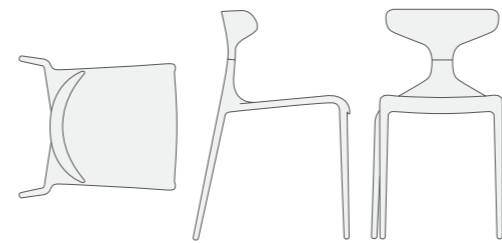

The Lux design is an "essential" one. It represents the aesthetic care which comes alive from continuous research by Archirivolto Design that interprets an easy way of contemporary furnishing.
